Notes: 8/20 Run 3A Opening- Pct 604 had one envelope that did not contain a ballot.

8/22 Questionables Rejected- Other:

- 1) Received ballot, did not receive certificate, couldn't determine who voter is.
- 2) Voter didn't receive ballot and was sent a replacement. We received ballot but the signature didn't match because someone else signed it. Received 2nd ballot and signature matched. Both ballot envelopes have the same voter's name on them. The first ballot signature matches the signature of another voter.
- 3) Voter is Federal Elections Only; because voter is NPA they shouldn't have received a ballot. Ballot was emailed through Enhanced Voting before it was caught. Enhanced Voting doesn't differentiate Federal Ballots from a regular ballot, which is why a regular ballot was sent.
- 4) Ballot received with another person's signature; ballot was returned as "Signature Differs." A cure affidavit was sent to voter, and the voter said they didn't sign the ballot envelope. Voter realized their spouse signed the ballot envelope and sent a signed statement saying they signed it.
